

**Purpose**

Provides a free draining flexible, hard wearing surface, enabling water to freely drain away.

**Notes:**

Areas with vehicle overrun should have layers constructed in accordance with Highways agency specifications

This specification is based on good practice for flexible resin bound surfaces, and does not absolve the specifier from designing a sub base suitable for the requirements of traffic and ground conditions occurring on specific sites.

The details in this specification are intended only as a guide in specifying Clearstone products, actual details should be developed by the project designers taking into account the specific circumstances of the intended application. Clearstone assumes no responsibility for improper reliance upon or misuse of the data herein. Product design and specification are subject to change without further notice.
